

The Mission of TFRW Outreach Education is:

Increase the numbers of nontraditional Republicans (Democrats and minorities) in the Republican Party.

We can do just that by... Leading by example with our lives, our conservative values and philosophy are what we must communicate. Telling others and not pandering... "Why I am a Republican"... "Not why you should be a Republican"... traditional minorities share the very same values that all conservatives share... God, Family and Country...

Goals of TFRW Outreach Education are:

1. Educate
2. Promote minority conservatism as a more fulfilling way of life, not a political ideology
3. Increase the number of minority voters in 2008 national elections
4. Voter registration drives in minority neighborhoods to register new minorities as Republicans
5. Elect minority Republicans from the Black, Hispanic and Asian communities
6. Train minority voters to fill the vacancies of Republican precinct chairmen in identified minority neighborhoods
7. Identify and increase minority applicants interested in appointments to state and county boards and commissions
8. Identify individuals and citizens groups willing to work for and in support of the TFRW Outreach Education Mission and Goals
9. Welcome conservative, interested minorities to become members of TFRW local clubs and or to encourage the founding of minority Republican clubs and organizations by low fee training seminars in Republicanism
10. TFRW Presidents appoint an Outreach Education Committee Chairman in every TFRW Club in the state of Texas

As TFRW members; we now have an unanticipated opportunity to reach out to voters who supported Senator Hillary Clinton. We have a short opening of

perhaps two months or less to do just that. Senator John McCain realized this before Senator Obama had enough electoral votes to make him the Democrats Candidate and has already started his outreach to those disappointed Clinton supporters.

Now is an excellent time to appeal to those supporters of Senator Hillary Clinton. Many of her supporters are bitterly disappointed by the sexist treatment they believe and that she in fact did receive by the Liberal Press and supporters of Senator Barak Obama. The caricature like portrayal of Senator Clinton on national television has offended millions of American women including conservative women.

Many former Clinton supporters now view Senator McCain as more likely to address their professional and personal needs. Given the overt hatred of the USA and radical Muslim terrorism in the World today, personal security as women and mothers is very important to these voters. They know that Senator McCain has the experience and the background to protect them and their families... far and above Senator Obama who is simply not experienced or qualified... Another glaring and worrisome fact are the many unfortunate remarks made by Senator Obama, Michele Obama, Reverend Wright, Reverend Flaeger, Louis Farakand and long time dubious friendships of Senator Obama have caused great concern for many voters throughout the country. His race simply has nothing to do with these concerns. Senator Obama's mantra is "Change" and "Yes we Can"... Change to what?! Can what?! As the old lady in prior elections asked, we now ask, "Where's the Beef?".

This election seems to have lasted an inordinate amount of time. Sixteen months is a long time... We are all weary with politics, but now is not the time to quit, now is the time to really get busy and get out the vote for Senator McCain and all other Republican Candidates and "Yes we Can"! Republican women have done it before and we can do it again!

NEVER FORGET THAT FREEDOM IS NOT FREE! Senator John McCain knows that better than most. He risked his life in the Hell hole of the Viet Nam War, was beaten and tortured for six long years as a POW. He has proven his mettle. Now let us prove ours and make him the next President of the United States of America!
