

Sample Letter about “Drill Here. Drill Now. Pay Less.”

Dear _____,

The American people are paying record prices for gasoline, diesel, natural gas, and aviation fuel. In turn, expensive fuel leads to higher prices for all goods and services. Americans are tired of these prices and are calling on Congress to finally take action that will lead to a drop in fuel prices.

We can no longer rely on OPEC nations to supply us with our oil. Prices will only continue to climb and our national security will remain threatened. It is time to take immediate action and begin tapping into the plentiful energy resources the American landscape provides.

With nearly two trillion barrels of oil (three times the proven reserves of Saudi Arabia) available to drill in an environmentally safe manner off our coasts and in parts of Alaska and Colorado, American Solutions has started a “Drill Here. Drill Now. Pay Less” petition campaign.

I/We hope that you, too, will join American Solutions as we push Congress to enact legislation that will finally make it legal to explore domestic drilling possibilities that will lead to lower prices at the pump and decreased dependence on oil from the Middle East.

I/We encourage you to take action by calling and writing your representative and senators. Tell them you support American Solutions’ “Drill Here. Drill Now. Pay Less.” campaign, and encourage them to draft similar legislation.

With your help, and the help of your family, friends, and colleagues, we can ensure Congress finally takes the steps towards energy independence that 74% of Americans want.

Sincerely, _____

Paid for by American Solutions for Winning the Future.
