

CAMPAIGN ACTIVITIES

August 2008

Fellow Republican Women, if your frustration level is as high as mine, you're probably tempted to give up watching television at all these days. Anointing and pandering, is that all there is? It's all-Obama all the time, and it might be merely annoying if it didn't hold such dire consequences for our country. They are carrying "obnoxious" to a whole new level. But I know that you all are as proud as I am to be foot soldiers in this all-out war on our Constitution and our way of life. So keep the faith and keep up the good work, ladies.

A special thanks in advance to the women and their clubs who are hosting our Get Out The Vote workshops this year!

They are:

Bandera Co. RW, August 2

Kaufman Co. RW, August 16

Nacogdoches Co. RW, August 23

Salado Area RW for the Region XI workshop, September 6

Through these workshops, we plan to give grassroots activists and workers all the campaign tools and tactics that are available, so that they can be the best possible campaigners. We still have some open dates. In addition, some of us serving on the TFRW board are traveling to clubs to speak to them on various subjects, to help educate your members and hopefully raise the enthusiasm level, as well as give your clubs points toward awards. I will be speaking to the ladies of San Patricio Co. RW in October, giving them an update on our GOTV efforts, as well as explaining the structure of TFRW and NFRW. Please call if this might be something you would want to incorporate into your programs. We are now in the third reporting period, which ends September 30.

So ladies, remember how wonderful and special you are, as we focus on what unites us, during this most critical time in our nation's history, because electing Republicans IS a mighty cause!!
