

## **Ballot Security Committee Report**

I know that many of you have been hearing horror stories about various organizations registering voters and the huge number of these new registrations that have been thrown out due to fraudulent information. Don't you wish we had a voter ID law in place in this upcoming election? I think we all do.

Unfortunately, it is too late for this election, but we need to pass a law for future elections. **AND WE CAN DO THIS WITH YOUR HELP.**

A resolution on Ballot Security was approved at the August 8, 2008 TFRW Board meeting. A copy of that resolution is in this newsletter. I need all Club Presidents to take this Resolution to their clubs and request that their members pass it. I am anticipating that every club in the State of Texas will pass the resolution. Once this resolution is passed by your Club, please send a copy to your State Senator and State Representative, your United States Senators and Representatives, and the Texas leadership.

**Do not underestimate the power of Republican Women!!**

Thank you for your time and effort.

Barbara Larson
