

TFRW OUTREACH EDUCATION

Mona Blocker Garcia

I have read with great interest about the books recommended by Rebecca Williamson, 1st VP in the September *President's Newsletter*. Though these books were written some fifty years ago they are timely. I did read them and plan to read them again.

I would also like to recommend a book written long ago that is also timely. It tells of an interesting time in our political history of the beginning of the Cold War. With the advent of the recent Russian occupation of two Georgian provinces, Russian resistance to missile defense in Poland and their fury at the possibility of former Eastern Bloc countries joining NATO. Now the Russian are claiming the Arctic Circle for the huge oil reserves that are international territory and belong to Canada, the USA and Sweden as well as Russia. Apparently they do not plan to share! These are indeed dangerous times. History does repeat itself in good and bad ways. We are all responsible as conservative Americans to do all that we can to educate our children and each other on the dangers of sliding into Socialism. The name of this excellently written and timely book is "EXODUS" by Leon Uris. I urge all to read it once more.

TFRW Outreach Education was created to reach out to nontraditional Republicans and minorities but we must not forget to educate our children. An excellent education resource are the wonderfully informative books on Texas Law "NOW YOU ARE 18" written by members of the State Bar of Texas with a focus on education for Texas youths and their emerging responsibilities as citizens of Texas and the USA. These books are also wonderful tools for TFRW Club Literacy and OUTREACH programs. They can be purchased individually or by the hundreds for your club. These booklets make great gifts for conservative friends, family and neighbors. They cost only \$1.00 each. They may be purchased at TFRW Board meetings or by calling Mona Garcia at (432) 729 4826.
