

CONSTITUTING AMERICA

Dear Cheryl,

We wanted to let you know about an exciting new foundation we have launched, Constituting America: www.constitutingamerica.org, and ask that you spread the word!

The mission of Constituting America is to educate America's youth and citizens about the Constitution and its value, validity, and relevance today! We are passionate about changing the culture of our country and hope to get youth excited to learn about the United States Constitution through new and innovative means!

One of our first initiatives is a scholarship contest for students to garner awareness and enthusiasm about the Constitution, entitled, "We the People 9.17 Contest," centered around Constitution and Citizenship Day, September 17. Contest entries are due July 4!

Our contest is available to students grades K-12, and gives kids the opportunity, depending on age, to write and direct an entertaining short film or public service announcement, compose a cool song, write an essay, or for younger kids, write a poem or design a holiday card! Entry themes emphasize why the United States Constitution is relevant today. Prizes include \$2,000 scholarships and a trip to Philadelphia for the high school kids and prizes such as \$100 and \$200 gift card awards for the younger kids. One of the great things about our contest is the diversity of the entry categories, cutting across disciplines such as English, History, Music and Drama!

Materials on the contest including online entry form, flyers and rules are available under the Teacher's Tools download button on our website www.constitutingamerica.org

We would be very appreciative if your club members could get our contest information out to schools in their area, and encourage as many entries as possible! Additionally, we will be creating Constituting America bracelets that can be purchased and donated to schools, for kids to wear on September 17, Constitution Day. We will also have DVD's highlighting winning contest entries and other educational information about the Constitution available for purchase and donation to schools.

Thank you for your help in our mission to get our nation's youth excited about the United States Constitution and the principles upon which our country was founded! We thank you for spreading the word about the "We the People 9.17 Contest," and hope to see many contest entries as a result of your efforts!

Sincerely,

Janine Turner and Cathy Gillespie
