

## Watch Out! Amnesty Push Coming Soon!

In my report this month, I will let you know about some horrific immigration bills and proposals for federal immigration legislation. These bills are amnesty bills clothed in all sorts of soothing language. You must remain alert and informed. You may be tired from the health care fight, but get your energy together because if these bills pass you can “kiss America goodbye.”

Next month I will report about a proposed change to the Texas Republican Party Platform concerning immigration which will be voted on at the State Convention.

### **HR 4321: “The Comprehensive Immigration Reform for America’s Security and Prosperity Act of 2009”**

HR 4321 was introduced by Rep. Luis Gutierrez (D. Ill.) This bill might be comical if it were not such a horrible nightmare. Rolled into this bill are the Dream Act amnesty (defeated in the Bush administration), the AGJobs amnesty (also defeated in the Bush Administration) and another amnesty for parents of anchor babies. This bill could be called “No Illegal Alien Left Behind.”

This bill provides:

- A payment of \$500 to get amnesty unless the person cannot afford the payment. It is not required to receive amnesty;
- Law enforcement can no longer report the bad guys to ICE, Scrap E-verify system;
- Border patrol agents have to undergo special training so they don’t frighten the little kids crossing the border;
- No immigration enforcement activities can occur in any public place.

Read more about the bill at:

You may have heard that Senator Graham and Senator Schumer are working on a bipartisan bill. Although this new bill is still in the formative stages, some information is available. The bill will legalize illegal immigrants and create a biometric national ID card. Legalization will be accomplished by creating a “path to citizenship” for the estimated 12 to 20 million illegal immigrants. Graham and Schumer wrote , “Our plan has four pillars: requiring biometric Social Security cards to ensure that illegal workers cannot get jobs; fulfilling and strengthening our commitments on border security and interior enforcement; creating a process for admitting temporary workers; and implementing a tough but fair path to legalization for those already here”. “We would require all U.S. citizens and legal immigrants who want jobs to obtain a high-tech, fraud-proof Social Security card.”

Comprehensive immigration reform in this bill really means amnesty. The true solution to illegal immigration is to stop providing perks like welfare to law breakers and to properly police the border and defend the sates from invasion.

When is this bill coming? On March 25, 2010, Senator Graham said that immigration reform this year was dead. However, on March 26, 2010, Janet Napolitano said the U.S. will target immigration reform soon. Be prepared for the bill because it will probably be proposed before you know it.

Immigration (legal as well as illegal immigration) has been increasing in the U.S. for the last five decades. [http://cis.org/impact\\_on\\_population.html](http://cis.org/impact_on_population.html) The Center for Immigration Studies used Census Data to project different levels of immigration. If immigration continues at current levels, the nation’s population will increase from 301 million today to 468 million in 2060 — a 167 million (56 percent) increase. Immigrants plus their descendents will account for 105 million (63 percent) of the increase. The 105 million from immigration by itself is equal to 13 additional New York Cities. With the increase in population will come the additional problems with smog, water supplies, food supplies, housing, and transportation. Are you ready for it? In addition, all these people are now going to get Obama Health Care. Get in line and don’t get sick.
