ARE WE HAVING FUN, YET?? After the last Presidential Election there was great Gloom and Doom as well as a lot of insecurity. We knew bad things were coming but we didn't know how bad or how fast they would arrive. Now we know--- BAD things are coming FAST! You would expect Republicans to be down and depressed, wouldn't you? However, nothing could be further from the truth!

The "Awakening of Americans" in general and Republicans in particular is a JOY to watch! Every time I attend a Republican Event (a club meeting, the NFRW Board meeting, a TFRW Board meeting, and even the Southern Republican Leadership Conference in New Orleans) everyone in attendance is so EXCITED! Local Club members are excited, Texas State officials are excited, and National Republican Leaders are excited. In light of the horrible twists and turns our federal government is taking, why are Republicans so excited?

For years we have known things were not quite the same in our country but it was hard to put a finger on why. Our worst nightmare has come true and now we get to DO SOMETHING ABOUT IT! We know the enemy and we have a PURPOSE. Our Purpose is to rid the country of that enemy and we know we must be united, strong, and, yes, EXCITED!

People across the country are looking for a place and a way to help our nation. "I just have to do something" has become a rallying cry. We are so fortunate that we belong to the most active political force in the Republican Party and we have the OPPORTUNITY as well as the RESPONSIBILITY to act and ask others to help us as we take on this most important task.

The task of the TEXAS FEDERATION OF REPUBLICAN WOMEN is to grow this organization until everyone who wants to "do something" has joined us. The task of the TEXAS FEDERATION OF REPUBLICAN WOMEN is to get REPUBLICANS elected to very level of Government. The Republican Primary is over, the Run-Offs are over, it is time to get to work and have some fun!

THIS IS OUR TIME AND OUR RESPONSIBILITY! --Rebecca Bradford, President, TFRW
