

Share the TFRW Vision!

Share the Vision: Join Republican Women

Reach out to like-minded women in the workplace, community, and non-political arenas.

All of you are doing a great job, working to grow your membership. The thing I am so pleased about is the enthusiasm I see from clubs that are tremendously excited and working to reach their goal. This enthusiasm is contagious. I also know enthusiasm is a sign of a great club for new members to join.

Continue to reach out to people outside of your usual political circles. Many people are very concerned about the direction that our country is heading and feel helpless. Let them know that by being a part of a Republican Women's club they will learn more about how to make a difference. The more members we have, the more influence we create.

At our last board meeting I was extremely happy to see what a strong support system TFRW provides to our clubs. This is very important to help your clubs continue to be strong. The best recruitment tool we have is to have good, strong clubs. Your District Directors and Deputy Presidents are in your areas and there to help if you need them.

Keep on sharing.....

- Encourage new members to attend the Republican Party Convention in June
- Make a club banner or flag and participate in a 4th of July parade
- Email me with details about your membership events so I can share your stories
- Contact me if you have any questions or need any help
