

“Make America Great Again”

The Difference between Trump and Clinton

	<p><i>Trump=</i> <i>Less Government</i> <i>& Better Results</i></p>		<p><i>Clinton=</i> <i>More Government</i> <i>& Worse Results</i></p>
Tax Policy			
<p>Favors tax cuts for all, both corporations and people of all incomes. Would lower the corporate tax level to 15% bringing jobs back to America.</p>	<p>Wants cuts only for low income families. Higher taxes on the rich & corporations keeping America’s corporate tax rate one of the highest in the world discouraging business and job creation.</p>		
Gun Ownership & Social Issues			
<p>Pro-second amendment, endorsed by the NRA. Pro-life, opposes abortion. Believes in traditional marriage. Would appoint conservative Supreme Court justices who abide by the Constitution.</p>	<p>Anti-second amendment. Wants UN style gun confiscation of law-abiding citizens. Pro-abortion up to time of delivery and pro-gay marriage. Would appoint Supreme Court justices who would continue the policy of destroying the Constitution.</p>		
Economy & Trade			
<p>Opposes NAFTA, the TPP, and a North American Union. Opposes increases to the minimum wage. Both union and business friendly. Does not take money from banks, big corporations or special interests so does not owe anybody any favors allowing him to put America first ahead of his own desires.</p>	<p>Favors increasing the minimum wage which puts more small businesses out of business. Would continue and strengthen anti-American treaties and UN-style globalization. Pro-Agenda 21. Is bought and paid for by banks, Wall Street and foreign governments putting her at their mercy and America last.</p>		
Healthcare			
<p>Would repeal and replace Obamacare. Favors health savings accounts and the purchase of health insurance across state lines. Against giving healthcare to illegals.</p>	<p>Wants to expand Obamacare into a single-payer (i.e. taxpayer funded) system like Europe’s. Would increase healthcare subsidies for illegals and “free” healthcare for all.</p>		
Foreign Policy			
<p>Countries defended by our military will pay for it. Would cut back on foreign aid. Favors a more non-interventionist approach leaving sovereign nations alone. Would place a temporary ban on Muslim immigration while America rebuilds its failed immigration system. Would work to stop the flow of illegals and make Mexico pay for it.</p>	<p>Has initiated CIA-style takedowns of foreign regimes like Libya. Has made complete tactical blunders like Benghazi causing the death of our ambassador. Favors militarily meddling in other country’s government affairs. Has made amnesty for illegals part of her “first hundred days” plan. Favors UN style open borders.</p>		
Energy Issues & Environment			
<p>Would expand drilling for more energy/lower cost to consumers, allowing the market to decide forms of practical energy. Pro-coal and fracking. Would reign in the EPA regulatory powers.</p>	<p>Supports higher taxes for alternative energy. Would restrict drilling for oil & all fossil fuels to protect the environment. Pro-Saudi big oil in exchange for political donations. Thinks climate change is a bigger threat than the economy.</p>		
Education			
<p>Anti-Common Core. Would give control back to the states and counties.</p>	<p>Pro-Common Core. Pro-government paid for student loans. Wants Bernie Sanders-style universal free college education.</p>		
<i>Why Trump should be President</i>		<i>Why Hillary is Unfit to be President</i>	
<p>Trump sincerely wants to “Make this Country Great Again.” He loves the military and our law enforcement, both of which have suffered under the current administration. He wants to stop the flow of illegal immigrants into the country which causes more crime, especially in sanctuary cities, lowers American’s pay rates, and allows Muslim terrorists to sneak in. America cannot suffer another 4 or 8 years under the failed policies of progressive liberals.</p>	<p>Undoubtedly should be in the big house not the White House. She hasn’t accomplished a thing, only entitled by name recognition. She is responsible for Benghazi & 4 deaths. Guilty of having classified & Top Secret documents on a private server. Has received bribes. Sold \$165B in arms to countries donating to the Clinton Foundation. Saudi’s have funded 20% of her campaign who will later receive favors. She claims to be for women but supports those countries with poor human rights for women. A failed politician nobody likes.</p>
